Our Expertise

Based in Luxembourg and London, **Oostvogels Pfister Feyten** is one of Luxembourg's largest independent business law firms. Our practice is dedicated to corporate law, M&A, private equity, international taxation, banking & finance, investment funds, real estate, restructuring & insolvency and litigation.

We have extensive experience in complex international transactions and are regularly advising buyers and sellers, target companies and investment banks and private equity houses on a wide range of domestic and cross-border activities. Over the last decade, our team has been involved in many landmark acquisitions throughout Europe and Asia.

History

Established in 1999, we have since grown to a team of approximately 100 professionals of which around 50 are dedicated lawyers. In 2005, we represented the first ever Luxembourg firm to open a London office to service its UK clients exclusively in Luxembourg Law.

Committed to superior client service and advice, teams have a focused expertise and adopt an innovative approach to ensure clients' objectives are achieved. A strategic presence in key financial centres also enables us to offer clients the highest level of advice and assistance. Global in scope, we use our international skills to provide personal, one-on-one advice to clients across Europe, the United States of America and Asia. Today, we advise a strong international client base of multi-national corporate groups, leading banking and finance institutions, private equity houses and investment funds as well as high net worth individuals.

We strive for excellence in everything we set out to achieve.
